

Documentation required to examine an applied research project

Before submitting an ethics evaluation request for a new research project, ensure you have all the required documents.

- Proposed research protocol
- Consent form(s)*
- Other documents: Questionnaires, interview tools, forms, observation notebooks, etc.*
- Material used to recruit participants (advertisements, posters, etc.)*
- Letter of approval from any other research ethics committee (where applicable)
- Letters from the services/departments of the Vitalité Health Network that are involved confirming their participation in the research project (where applicable)
- Budget (estimated costs)

**These documents must be submitted in both French and English, if applicable.*

All research conducted on human subjects at the Vitalité Health Network must be evaluated and approved by the Research Ethics Committee. Final approval in writing must be obtained before the recruitment phase begins.

Please submit your documentation in electronic format (*preferred*) or hard copy format to:

Office of Research Services
Vitalité Health Network
